

## Outputs

**Traffic Education Parks** installed in Karsava, Rezekne (Latvia), Pskov, Krasnogordosk, Pytalovo (Russia) and Voru (Estonia). Altogether **6325m<sup>2</sup>** territory reconstructed, **7 training equipment sets**, **30 training materials sets**, **1 testing equipment set**

3-days **International Forum "Safe Wheel"** for 72 bicycle riders

### 4 international campaigns hold:

- "Know the traffic regulations abroad" for 5000 drivers and travellers
- "Father, mother and me - protected family" with 12000 children involved
- "Love life" for 120 new drivers
- "Sleep and drive!" for 2500 drivers crossing 2 LV-RU and 1 EE-RU borders

**Improvements of transport and road information infrastructure** by impacted zone in distance of 49,09km of transit streets, including: Road surface reconstruction, incl. lighting 4,697km, 3 parking places (3961sq.m), reconstruction of pedestrian roads 2,416km, marking streets with plastics 0,439km, installation of barriers 0,04km, 13 bus stops, 60 traffic/street signs, 4 welcoming signs, 4 Intelligent Transport Systems (ITS) sets, 3 recreation areas, 4 information stands, 9 crossings including lighting

**Handbook and web based catalogue** "Innovative streetscape design – Sustainable Transport and Public Space Development in Border Towns of Estonia, Latvia and Russia" issued (100EE, 100LV, 100RU, 200 web entries)

**4 study visits** for 15 traffic safety responsible representatives (from Estonia, Latvia, Russia) to establish contacts, be introduced with equipment, test new drivers system, be trained to safe driving in extreme situations

**15000** leaflets, **14600** brochures, **178** press-releases and articles, **11** video clips, **14343** promotional materials issued and distributed during project implementation

*Traffic Education Park (Russia)*

*International campaign "Father, mother and me – protected family" (Russia)*

*Improvement of road infrastructure in Võru (Estonia)*

*Reconstruction of road in Pytalovo (Russia)*

## RESULTS

**Public awareness on traffic safety** issues increased after involvement of 22207 persons into 4 traffic safety campaigns, 2 forums, 4 study tours

**Number of accidents**, caused by fatigue, aggressive driving behaviour, lack of knowledge on traffic safety regulations, bad road infrastructure and lack of traffic signs **decreased**

**Children knowledge on traffic rules improved** due to functioning traffic education parks in border regions

**Improvements in the transport and road information infrastructure** in 12 Estonian, Latvian and Russian settlements located on the strategic transport corridors of international importance **ensure traffic safety for drivers and pedestrians**

**Cross-border network strengthened** between at least 12 police and traffic safety responsible representatives of Latgale region (Latvia), South Estonia and Pskov oblast (Russia)
